AGENDA

- **Content:**
 - Introduction to the Project
 - Objectives and Target Audience
 - Key Features
 - Workflow and User Journey
 - Website Design (Home Page and Interfaces)
 - Technology Stack
 - Benefits and Challenges
 - Conclusion and Future Scope

INTRODUCTION TO PROJECT

- Gamification applies game-design elements (e.g., quizzes, rewards) to education to boost motivation and retention.
- Our project: A website for AKTU B.Tech students to learn subjects interactively through a structured, fun process.
- Core idea: Students progress through locked topics by completing engaging quizzes and earning rewards, aligning with the 4-year B.Tech curriculum

OBJECTIVE

CONTENT

- To create an interactive platform for B.Tech students to review and master AKTU syllabus topics.
- To promote self-paced, sequential learning through gamified quizzes.
- To drive growth in user engagement and retention via rewards, badges, and unlocking mechanisms.
- To align with AKTU's 4-year curriculum, ensuring relevance for all branches.

TARGET AUDIENCE

- AKTU B.Tech students across all branches (e.g., CSE, ECE, Mechanical).
- Focused on the 4-year program: 1st to 4th year.
- Assumes basic computer literacy; accessible via web browsers on desktops or mobiles.

WORKFLOW

- Step 1: User logs in/registers.
- Step 2: Selects Year → Semester → Subject → Chapter.
- Step 3: Views Topics (first unlocked).
- Step 4: Completes Quiz → Earns Reward → Unlocks Next Topic.
- Step 5: Repeat for full progress.

HOMEPAGE DESIGN

- Header: Logo, Navigation Menu (Home, About, Contact).
- Hero Section: Welcome message, "Select Your Year to Start Learning!" with buttons for 1st, 2nd, 3rd, 4th Year.
- Footer: Links to social media or help.
- Visuals: Colorful, with gamification elements like a trophy icon.

Include a wireframe or screenshot mockup (create in Canva or draw digitally).

YEAR SELECTION INTERFACE

- After home page, a page with 4 buttons/cards: 1st Year, 2nd Year, etc.
- Each card shows a brief description (e.g., "Foundation Subjects").
- Clicking leads to Semester Selection.
- Visual: Grid layout with icons (e.g., graduation cap for years).

STUDIO
SHODWE

SEMESTER SELECTION INTERFACE

- Page with options: Odd/Even Semesters (e.g., Sem 1, Sem 2 for 1st Year).
- Dropdown or buttons; dynamic based on year.
- Example: For 2nd Year, show Sem 3 and Sem 4.
- Visual: Timeline-style layout.

SUBJECT SELECTION

- **List of subjects for the selected semester (e.g., for CSE: Data Structures, Algorithms).**
- **Cards or list with subject codes (e.g., from AKTU syllabus).**
- **Clicking selects and moves to Chapters.**
- **Visual: Subject icons (e.g., book for theory subjects).**

CHAPTER SELECTION

CHAPTER-1

CHAPTER-2

CHAPTER-3

TOPIC SELECTION

- Topics page: First topic unlocked (e.g., "Topic 1: Basics" with an open lock icon).
- Others locked (grayed out with lock icons).
- Progress bar showing completion.
- Visual: Chain of topics with locks.

QUIZ INTERFACE

- Quiz page: Multiple-choice questions in a game-like format (e.g., timer, points).
- Fun elements: Animations, sound effects (optional), progress bar.
- Example: "Question 1: What is...? Options with hover effects."
- After completion: Immediate feedback and score.
- Visual: Mockup of a quiz screen with colorful buttons.

REWARD & BADGES SYSTEM

- Upon quiz completion: Earn points, badges (e.g., "Quiz Master" badge).
- Display: Pop-up notification, badge gallery.
- Types: Bronze, Silver, Gold based on performance.
- Visual: Badge icons and a rewards dashboard.

UNLOCKING!!NEXT TOPIC

- After reward: Next topic unlocks automatically.
- Notification: "Congratulations! Topic 2 Unlocked."
- User can proceed or review previous.
- Visual: Animation of lock opening.

CHALLENGES AND SOLUTION

- Challenge: Ensuring syllabus accuracy. Solution: Integrate AKTU's official data.
- Challenge: Preventing cheating in quizzes. Solution: Randomized questions and timers.
- Challenge: User engagement. Solution: Regular updates and feedback loops.
- **Visual:** Pros/cons icons.
- Image Suggestion: Pixabay: Challenges solutions.
- **Speaker Notes:** "We've addressed potential issues to make the platform robust."

FUTURE SCOPE

Future Enhancements:

- Integrate AI-powered recommendations for personalized quiz difficulty and topic suggestions based on user performance.
- Add multiplayer quizzes and leaderboards to foster collaborative learning and competition among students.
- Develop a mobile app version for better accessibility on smartphones and tablets.
- Expand to include video tutorials, discussion forums, and integration with AKTU's official exam portals.
- Implement analytics dashboards for teachers to track student progress and provide feedback.
- Call to Action: We welcome feedback for implementation and scaling.
- Visual: Futuristic icons (e.g., rocket for growth, app mockup for mobile).

THANKYOU
